PROFESSIONAL EXPERIENCE

Freelance Front-End Web Developer

Self-Employed | Remote, Tamil Nadu, India | 2022 – Present

- Delivered **10+ custom**, responsive websites for local businesses, students, and individual clients using HTML5, CSS3, JavaScript, React.js, Express.js, and MySQL.
- Collaborated directly with **15+ clients** to gather requirements, translating them into clean, maintainable web solutions that increased repeat-client engagement by **40%**.
- Ensured responsive design and cross-browser compatibility across **10+ projects**, reducing average page load times by up to **30%**.
- Managed multiple concurrent projects independently, meeting **100%** of delivery deadlines and maintaining a **95%+** client satisfaction rate.

PROJECTS

Library Management System (Main Project)

Tech Stack: HTML, CSS, JavaScript

Built a responsive system to manage book records, issue and return books, and search available titles, simplifying library operations with a user-friendly interface.

Live Demo: <https://developernnp-spec.github.io/library-management/>

Bike Rental Website (Mini Project)

Tech Stack: HTML, CSS, JavaScript, PHP, MySQL

Developed a responsive rental application to browse and book bikes online, with real-time availability tracking, instant email confirmations, and an admin inventory system.

Live Demo: <https://bike-rental-management-system.freepage.cc/>

Hotel Management System (Learning Project)

Tech Stack: HTML, CSS, JavaScript, PHP, MySQL, IoT

Created a web-based booking system with a real-time IoT-integrated interface, automatic room availability checks, and a secure administrator control panel.
